MISCELLANEOUS RECORD.

CORPORATION OF THE CITY OF PHILADELPHIA.

ORGANIZATION OF COUNCILS.

The members of the Select and Common Councils are elected annually, on the first Tuesday in May, and meet at the City Hall, at 10 o'clock, in the forenoon, on the Monday succeeding their election, for the purpose of organizing in their respective chambers, the Chief Clerks of former Councils acting as the presiding officers, until Councils elect their Presidents. The members of each Council are severally sworn or affirmed to support the Constitution of the United States and of the Commonwealth of Pennsylvania, and that they will discharge the duties of their office with fidelity. Each Council elects a President, Chief Clerk, Assistant Clerk, and Messenger, who severally take the oath of office, and enter immediately upon the duties thereof. Councils being thus fully organized, notify the Mayor of that fact, receive whatever communication in writing he may have to make to them, and proceed to the performance of business.

POLICE AND FIRE ALARM TELEGRAPH.

Superintendent—William J. Phillips.

Elected by Councils, March 29, 1860, for one year.

Superintendent of Police and Fire Alarm Telegraph is elected by Councils in joint convention, at the first meeting in the month of March, for one year (annually).

Central Office, City Hall, S. W. corner Fifth and Chestnut.

The Superintendent is, under the directions of the Mayor and Chief Engineer of the Fire Department, to manage for its appropriate use, the Police and Fire Alarm Telegraph. The Superintendent appoints one Assistant, and the Mayor details policemen as telegraph operators for the different stations.

Fire Alarm Stations, by Districts.

Keys of the Signal Stations are in possession of the police, and also placed in some convenient store in the neighborhood of the box.

The ringing of the bells within the Signal Sta-

tions denotes the number of the station that gives the alarm; thus—one tap, a pause, and three taps, another pause, and five taps—1—3—5—indicates that the alarm came from box No. 135.

The State House and the Fire Alarm Bells in the several districts will strike the number of the Fire District *twice*, and the direction *four* times; each bell striking the direction from itself. Should the fire be in the vicinity of the State House, the bells in the boxes will ring incessantly.

In cases of general alarm, requiring the services of the entire department, the bells will be rung incessantly, in quick succession, after having first signified the district in which the fire is raging.

Benefits of Life Insurance.

Every one acknowledges the wisdom and prudence of providing for a family against the adversities of fortune, or the accidents of life, and the advantages which Life Insurance Companies offer in this respect, are too apparent to need an appeal to the public, on their behalf. "A policy of Life Insurance," said Benjamin Franklin, "is the cheapest and safest mode of making a provision for one's family." That more do not avail themselves of the benefits of Life Insurance, must be that the operations of these companies are not as well understood as are those of a similar character, namely, Fire Insurance. A man who neglects to insure his house, if it is destroyed by fire, has but little sympathy in his misfortune, and is censured and condemned for his imprudence; but what is the loss of a house without insurance, compared to the loss by a wife and children of a husband and father, without an insurance on his life? Unlike Fire Insurance, however, every house may not be burned, but every man dies. The necessity of Life Insurance is therefore more apparent and more positive than Fire Insurance.

Purposes of Life Insurance.

Life Insurance may be resorted to for other purposes than that of protecting a family from want. Creditors may assure the lives of their debtors as a security for their claims, or a policy may be taken for a sum payable when the party attains the age of 50, 55, or 60 years, and so make a provision for old age, or payable to their heirs or assigns, should they die in the interim; or a fixed sum may be secured

at death by one payment. A Life Insurance Company is thus capable of being used for the purpose of a savings bank, with this advantage, that should the party die while he keeps his account with the Assurance Company, his heirs or assigns will receive a very much larger sum than they could possibly receive from any savings bank in which a similar account might be kept.

The question is no longer, SHALL I GET MY LIFE INSURED? but rather, WHERE CAN I INSURE IT TO THE BEST ADVANTAGE?

Difference in Life Insurance Companies.

In answering this question it will be necessary to explain briefly the different kinds of Life Insurance Companies. They are all based upon the same fundamental principles, differing in the plan of organization upon which the business is conducted. This difference consists in their being either *Joint Stock* Companies, *Mixed* Companies, or *Mutual Insurance* Companies.

Joint Stock Companies.

Joint Stock Companies issue at fixed rates, the *profits* being WHOLLY divided among the proprietors.

Mixed Companies.

Mixed Companies are also Joint Stock Companies with proprietary bodies, but the assured are allowed to participate to a certain extent with the proprietors in the profits of the business.

Mutual Companies.

Mutual Companies, on the contrary, have no proprietary body distinct from the insured, *all of whom* have their proportionate *share* in the surplus accruing from the business.

Advantages of Mutual Co's.

A *purely mutual company* offers then a greater advantage, inasmuch as it divides the *whole* surplus among the insured after deducting only the actual cost to the Company of carrying on the business, which is not the case with the first class mentioned, and only in a *degree* with the mixed companies. This plan of operation insures the applicant at the *lowest possible* premium, for all that is over the sum required to insure him safely, is returned in dividends, which is not the case with the stock companies, and partially so only with the mixed companies, the proprietary body in the latter having first to receive its share of the surplus before a dividend can be declared to the insured.

A PURELY MUTUAL COMPANY IS, THEN, THE ONE IN WHICH TO INSURE TO THE GREATEST ADVANTAGE.

The *New England Mutual Life Insurance Company* is organized upon the purely mutual plan, and has as the result of this plan, during the sixteen years of its existence, declared to those assured, the following dividends:

36	per cent.	to all members	since	1853.
38	"	"	"	1848.
39½	"	"	"	1843.

Dividends Payable in Cash.

The New England Mutual Life Insurance Company do not pay their dividends in Scrip, but always in CASH. At the close of every five years the Company after paying the expenses of the business, reserving a sufficient sum to reinsure all risks, and cover all possible contingencies, divides the surplus proportionately

among the assured. By this plan, there is no accumulating scrip, or possible liability to guard against, and the rates of premium are materially lessened by the cash dividends, the insured reaping the immediate rather than the prospective advantages of the mutual plan. Some Companies are compelled by their charters to *credit* their distributions on the policies in the form of a bonus, payable only when a loss takes place, thus creating an immense and unnecessary capital, and depriving the members, in case of non-payment of premium, of all right to the bonus. In this Company, the distributions are a source of pecuniary relief in paying future premiums, and, in times of great financial distress, are sensibly felt. *In no event* does the bonus (if a member choose so to apply his distribution) *become forfeited.* The cash distribution in 1858 amounted to $335,000.

Liabilities the Company.

Every year a full and complete statement of the operations of the Company, with its assets and liabilities, is made to the Legislatures of Massachusetts and New York, and a report is made to the assured of the condition of the Company. Every five years, at the time of declaring the dividends, the business is, as it were, closed, so that its actual position and solvency are made manifest at that time. This guards the assured against any possible loss from inefficiency on the part of the Company, and is a sure guarantee as regards the future.

Terms of Payment

The terms of payment of the premium in the plan adopted by the New England Life Insurance Company, while ignoring entirely all uncertainty arising from the credit system, are peculiarly advantageous to the assured.

For the convenience of those who desire it, premiums will be received quarterly or semi-annually, or one-half of the amount of five premiums will be loaned to life members for a term of years, on security of the policy itself. Interest computed at *six per cent. per annum.*

This is not insuring on credit; for the Company gets pay from time to time, previously to running the risk—the interest on the note being taken into the account. The notes, or any part of them, will be demandable after five years from the date of the first one, on notice of ninety days, so that the Company may have command of their funds, should the same be necessary; but it is not supposed that such notes will ever need to be paid. There can be hardly a doubt that the principal may remain outstanding as long as the assured wishes.

Five annual life premiums being double the amount of the cash premium required for an insurance for the term of five years, it follows that the policy is adequate collateral security for a loan to the amount of one-half of the life premium. The Company by this rule, never insures upon the personal credit of any member, its loans being restricted to those policies only which have a pecuniary value. The Company also aids those members who have paid several life premiums in cash, by affording them a credit in times of pecuniary distress, for subsequent premiums, to an amount equal to what would be paid them on surrender of the policy.

TABLE OF PREMIUMS.

THE FOLLOWING IS THE CONDITION OF THE COMPANY.

Policies Outstanding,	4,000
Amount Insured,	$13,000,000
Receipts in 1859 for Premiums and Interest,	432,000
Losses Paid in 1859,	112,000
Net Accumulation for 1859,	283,000
Total Fund, well invested, over	1,480,000

This Company has paid, since its organization in 1843, over $700,000 to the families and representatives of insured members. It has made three distributions of surplus funds (in 1848, 1853, 1858), *in cash, not in scrip*, amounting to over $500,000. The cash distribution, in 1858, amounted to $335,000.

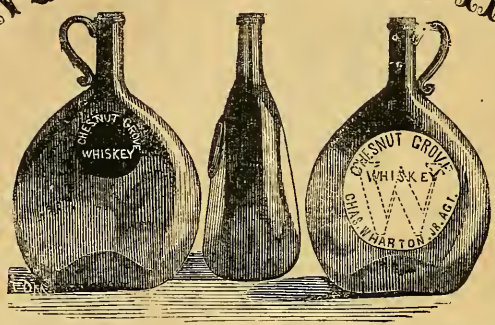
CHESNUT GROVE WHISKEY



116 **116**

CERTIFICATES.

PHILADELPHIA, *Sep. 9th*, 1858.

We have carefully tested the sample of Chesnut Grove Whiskey which you sent us, and find that it contains NONE OF THE POISONOUS SUBSTANCE known as FUSIL OIL, which is the characteristic and injurious ingredient of the Whiskeys in general use.

BOOTH, GARRET & CAMAC, *Analytical Chemists.*

NEW YORK, *Sep. 3d*, 1858.

I have analyzed a sample of Chesnut Grove Whiskey, received from Mr. Charles Wharton, Jr., of Philadelphia, and, having carefully tested it, I am pleased to state that it is entirely FREE from POISONOUS or DELETERIOUS substances. It is an unusually pure and fine flavored quality of whiskey.

JAMES R. CHILTON, *Analytical Chemist.*

BOSTON, *March 7th*, 1859.

I have made a chemical analysis of commercial samples of Chesnut Grove Whiskey, which proves to be free from the heavy Fusil Oils, and perfectly pure and unadulterated. The fine flavor of this Whiskey is derived from the Grain used in manufacturing it. Respectfully,

A. A. HAYES, M. D., *State Assayer*, No. 16 Boylston Street.
